Chief Executive Officer

Notification letter of allocation and the subscription documents of newly issued ordinary shares in combination with warrants representing right to purchase ordinary shares of Clover Power Public Company Limited

Part 1: Information regarding the allocation of newly issued ordinary shares

1. Name and address of the listed company

Name: Clover Power Public Company Limited (the “Company”)
Address: 159 Soi Rama IX 57/1 (Wisetsuk 2), Phatthanakan, Suanluang, Bangkok 10250
Telephone number: 0-2731-7999
Website: <https://www.cloverpower.co.th/>

2. Date and number of the Board of Directors’ Meeting and the Shareholders’ Meeting that resolved to allocate newly issued ordinary shares

The allocation of newly issued ordinary shares by offering to the existing shareholders of the Company in proportion to their respective shareholdings (Rights Offering) has been approved according to the resolution of the Extraordinary General Meeting of Shareholders No. 1/2023 on 12 October 2023 and the Board of Directors' Meeting No. 11/2023 on 16 November 2023.

3. Details of the allocation of newly issued ordinary shares

The Board of Directors' Meeting (BOD) No. 7/2023 on 15 August 2023 resolved to propose to the Extraordinary General Meeting of Shareholders (EGM) No. 1/2023 on 12 October 2023 and the EGM has resolved to approve an increase in the Company's registered capital of Baht 1,920,000,000 from the original registered capital of Baht 640,000,000 to a new registered capital of Baht 2,560,000,000 by issuing and allocating newly issued ordinary shares in an amount not exceeding 3,840,000,000 shares with a par value of Baht 0.50 per share; which the Company will allocate newly issued ordinary shares in an amount not exceeding 2,560,000,000 shares with a par value of Baht 0.50 per share, offered to the existing shareholders of the Company in proportion to their shareholding (Rights Offering)

However, after the Board of Directors' Meeting No. 7/2023 held on 15 August 2023, there has been a significant change in the economic situation, including the impact of the situation of wars in foreign countries. This has a material adverse effect on stock prices on foreign stock exchanges and on the Stock

Exchange of Thailand and on the sale and purchase price of the Company's shares on the Stock Exchange of Thailand which is lower than the offering price of the newly issued shares and the exercise price of rights under the warrants to purchase the Company's ordinary shares. The Board of Directors' Meeting No. 10/2023, which was held on 10 November 2023 has considered and resolved to approve the cancellation of the allocation of the newly issued ordinary shares to offer to the existing shareholders in proportion to their shareholdings (Right Offering) at 1.00 Baht per share as for the shareholders who had subscribed for the Company's newly issued shares during 6 November 2023 to 10 November 2023. The Board of Directors' Meeting No. 11/2023, which was held on 16 November 2023 resolved to approve the new allocation of the newly issued ordinary shares to offer to the existing shareholders in proportion to their shareholding (Right Offering), the amendment of the exercise price of rights under the warrants to purchase the Company's ordinary shares No. 1 (CV-W1), and new period of subscription and payment for the subscription price of the newly issued ordinary shares to the existing shareholders in proportion to their shareholding (Right Offering) with the allocation ratio of 1 existing ordinary share to 2 newly issued ordinary shares with an offering price of Baht 0.50 per share; and the Company will allocate newly issued ordinary shares in an amount not exceeding 1,280,000,000 shares with a par value of Baht 0.50 per share to accommodate the exercise of the warrant to purchase ordinary shares of the Company No. 1 (CV-W1) allocated to the existing shareholders of the Company who subscribed and allocated with newly issued ordinary shares in proportion to their shareholding (Rights Offering) free-of-charge (zero Baht) at the allocation ratio of 2 newly issued ordinary shares per 1 unit of the warrant. The details are as follows:

Offering details

This issuance and offering of newly issued ordinary shares to existing shareholders of the Company will be an offering of ordinary shares in proportion to the shareholding. The existing shareholders have the right to oversubscribe for newly issued ordinary shares (Oversubscription). The existing shareholders who oversubscribe shall receive such oversubscription shares only when there are remaining shares from the allocation to existing shareholders of the Company that are fully subscribed, accordingly.

However, in the event that there are newly issued ordinary shares remaining from the allocation to existing shareholders in the first round, the Company will allocate the remaining newly issued ordinary shares to existing shareholders who intend to oversubscribe for the newly issued ordinary shares in excess of their own proportion of shareholding, at the same offering price of shares allocated in accordance to their rights. In the allocation of such newly issued ordinary shares, the Company will allocate the remaining shares until there are no more newly issued ordinary shares left from the allocation or until no shareholder intends to subscribe for such newly issued ordinary shares or is unable to allocate because it is a fractional share. The details are as follows:

- (1) In the case that the remaining newly issued ordinary shares after the allocation to the existing shareholders according to the shareholding ratio (Rights Offering) in the first round is more than or equal to the number of newly issued ordinary shares that the existing shareholders oversubscribe, the Company will allocate such remaining shares to all existing shareholders who have oversubscribed and fully paid for the shares according to the amount of intention shown in oversubscription.
- (2) In the case that the remaining newly issued ordinary shares after the allocation to the existing shareholders according to the shareholding ratio (Rights Offering) in the first round is less than the number of newly issued ordinary shares that the existing shareholders oversubscribe, the Company will allocate the remaining newly issued ordinary shares to subscribers who oversubscribe as follows:
 - (a) The Company will allocate the remaining newly issued ordinary shares in proportion to the existing shareholding of each shareholder who oversubscribes, by multiplying the existing shareholding proportion of each oversubscribed shareholder by the number of

remaining newly issued ordinary shares. This is equal to the number of shares that each oversubscribed shareholder is entitled to be allocated (fractional shares resulting from the calculation will be disregarded). However, the number of newly issued ordinary shares to be allocated will not exceed the number of newly issued ordinary shares that each shareholder has subscribed and paid for in full.

- (b) In the event that there are still newly issued ordinary shares left after the allocation in accordance with clause (2)(a) above, the Company will allocate it to each shareholder who has oversubscribed that have not been fully allocated by multiplying the existing shareholding proportion of each oversubscribed shareholder by the number of remaining newly issued ordinary shares. This is equal to the number of shares that each oversubscribed shareholder is entitled to be allocated. The number of newly issued ordinary shares to be allocated will not exceed the number of newly issued ordinary shares that each shareholder has subscribed and paid for in full. In this regard, the allocation process to the shareholders who oversubscribe in this clause (2) shall continue until there are no shares left from the allocation.

The allocation of shares to the existing shareholders of the Company who oversubscribed it must not cause any shareholders (including persons under Section 258 of the Securities and Exchange Act B.E. 2535 (as amend) of that shareholder holding the Company's shares in a manner as follows:

- Increases to or crosses the point where a tender offer is required, such shareholder is obliged to make a tender offer for all securities of the Company (Tender Offer) according to the Notification of the Capital Market Supervisory Board. No. TorJor. 12/2554 Re: Rules, Conditions and Procedures for the Acquisition of Securities for Business Takeovers ("Notification on the Acquisition of Securities for Business Takeover") or
- In a manner that violates the restrictions on foreign shareholding as specified in the Company's Articles of Association.

Allocation of newly issued ordinary shares to private placement (Private Placement)

In the case where there are remaining newly issued ordinary shares after the Rights offering and after the Oversubscription, the Company may offer the remaining shares, whether once in full or several times, to private placement according to the Notification of the Capital Market Supervisory Board No. TorJor. 28/2565 Re: Permission for Listed Companies to Offer Newly Issued Shares to Private Placement. The said private placement will not be a connected person of the Company at the offering price of the newly issued

ordinary shares not less than 90 percent of the market price and not less than the offering price for the Rights Offering, such offering must be completed within 3 months from the end of the offering period of the newly issued shares to the shareholders. In addition, the Company will not allocate the warrants to purchase ordinary shares of the Company No. 1 (CV-W1) remaining from the existing shareholders who subscribe and receive the newly issued ordinary shares.

Remark: ¹Other revenues include revenue from leasing/providing services on related businesses, fines from terminating contracts, interest from deposit at financial institutions/short-term loans for related business, gain and loss from foreign currency exchange rate, etc.

In 2020, total revenue significantly increased from the previous year by THB 1,876.14 million, or 291.12%, mainly due to the presence of more power plants, namely the waste-to-energy plants under a subsidiary in Phichit, CPX, which started commercial operation at the end of October 2020 and incomes from machinery sales and construction engineering services continued to increase from the construction of a renewable energy power plant project in Thailand from the previous year, including raised service revenue.

In 2021, the Company's total revenue was THB 1,735.87 million, a decrease of THB 784.82 million, or 31.13% because, in 2020, the Group's revenue from selling machinery and providing engineering service for one of the renewable energy power plant project in Thailand (which is a continuation of the contract started in 2019) was higher than the same period in 2021; and the Company had interest income from lending to related companies, whereas, the same period in 2021 the Company had no interest income.

In 2022, the Company recorded a total revenue of THB 1,967.21 million, marking an increase of THB 231.34 million, which equates to a growth of 13.33%. This revenue boost can be attributed to the Company's higher earnings from electricity sales, which increased by THB 15.73 million, representing a 2.92% rise. This growth was driven by enhanced operational efficiency in the Company's power plants compared to the previous year. Furthermore, the Company's revenue from machinery sales and the provision of engineering services increased by THB 66.23 million, indicating a growth of 5.66% compared to the same period in the previous year as the Company continued its commitment to ongoing construction projects and infrastructure development since 2021. In addition, a new business segment was introduced in the first quarter of 2022, generating THB 131.22 million in revenue.

During the nine-month period ending 30 September 2023, the Company reported a total revenue of THB 876.44 million. This marked a decrease of THB 661.89 million, equivalent to a 43.03% decline compared to the same period in 2022 when the total revenue stood at THB 1,538.33 million. This decline was primarily due to a 4.72% (THB 19.61 million) increase in electricity sales revenue. This increase was attributed to the improved efficiency of the biomass power plants within the Company's group compared to the prior period. In contrast, the revenue from machinery sales and engineering services noted a significant reduction of 60.34% (THB 594.16 million). This decrease was due to ongoing construction projects related to building and general infrastructure. These projects have been ongoing since late 2022 and led to a decrease in revenue for the engineering business in 2023. Furthermore, revenue from the waste-to-energy power plant business declined by 50.77% (THB 45.97 million) due to the varying time periods in the wood pellet sales plan.
